

The Rampaging of the Jewish Entity in the Land and Skies of ash-Sham has none but the Khilafah (Caliphate) to Grieve Over

(Translated)

On Sunday 8 December 2024, Bashar al-Assad, one of the most brutal tyrants of the era, fell at the hands of the revolutionaries and the mujahideen, despite all the huge support that America had extended to him over the course of fourteen years. This is with the cautioning reminder that the fall of the tyrant does not mean the fall of his regime. All the pillars of a revolution, represented by the overthrow of the previous system and order, liberation (tahrir) from the influence of the kafir countries, and the establishment of the ruling by Islam, have not been achieved. This is in light of the efforts of America and its regional tools to empty the revolution of its substance, undermine the sacrifices of the mujahideen, and return us to square one through formal cosmetic changes, and the re-imposition of a new secular national regime with Western specifications committed to “the civil, democratic state, fighting terrorism, and involving all segments of society in governance,” including the henchmen and collaborators of the former regime. So, be aware and beware! The regime will not fall truly except by establishing the ruling by Islam, no matter how the facades, faces and frameworks change.

The enemies of the revolution, led by America, want it to be a smooth transfer of power that resembles a settlement with a tinge of the revolution’s victory. The Americans are in a state of panic, fearing that matters will get out of hand, and that sincere people will come to power. There is no better evidence of this than America’s mobilization through its Secretary of State, Blinken, and his frantic shuttling within the region, his meetings, and his mobilization of America’s agents to discuss controlling matters for fear of the awakening of the sleeping giant. This is whilst recalling the previous coordination since the beginning of the revolution between the fugitive rat Bashar “al-Assad” and the Jewish entity, in plotting against the revolution for fear of its results, and the scattering of the flames of its fire. In the context of this fear, by exploiting the circumstances and with full American approval, we understand the rampage of the Jewish entity’s air force. We can now understand its arrogance, and its continued destruction of infrastructure and pouring its hateful missiles on military sites and barracks, weapons depots, anti-aircraft and long-range missiles. We can understand the mobilization of the security cabinet of the Jewish entity and its repeated, extraordinary meetings within a short period, against the backdrop of developments in Syria.

Since the fall of the tyrant Bashar, the hordes of the Jewish entity have been rampaging across the land of ash-Sham, advancing to new positions there. Its planes are storming the skies of ash-Sham, with hateful air raids that have targeted a number of cities, towns, and military sites, until they reached the city of Deir ez-Zur in eastern Syria. These attacks have focused on weapons depots, air defense battalions in the central and southern regions, military scientific research centers, and military airports, including the Mezzeh military airport in the Damascus countryside. The bombing has targeted the security square in the capital, from where chemical weapons and ballistic missile programs are managed, according to the description of the Jewish entity’s broadcasting authority. The bombing has targeted military sites around the capital, sites around the town of Kafr, Khalkhalah airport in Sweida, Mount Qasioun in the heart of the capital. There have been air raids on the 16th Regiment east of Damascus, two military barracks, the headquarters of the Fourth Division, the radar battalion, and the Al-Dumayr military airport in the Damascus countryside, and military sites in the countryside of both Tartus and Latakia.

The entity justified these attacks by saying that they “aimed at enhancing its security and prevent advanced weapons, such as chemical weapons, from falling into the hands of ‘terrorist groups’”!

The Jewish entity’s army revealed, on Tuesday 10 December 2024, that it “carried out air strikes against nearly 80% of the Syrian military capabilities.” Its penetration into southern Syria reached about 25 kilometers southwest of the capital, and maps showed its control over the summit of Mount Hermon, and a number of villages and towns within the demilitarized zone, with a depth of up to 18 kilometers inside Syrian territory. The Jewish entity’s radio said that “350 fighters attacked sites from Damascus to Tartus, and that dozens of aircraft, military bases, air defense systems and weapons depots were destroyed.” This is whilst Netanyahu warned, saying, “If this regime allows Iran to re-establish its presence in Syria, or allows the transfer of Iranian weapons, or any other weapons to Hezbollah, or if it attacks us, we will respond forcefully. We will make it pay a heavy price. What happened to the previous regime, will happen to this regime.”

Meanwhile, the Defense Minister of the Jewish entity, Yisrael Katz, said that their naval missiles destroyed the Syrian war fleet, adding that their forces are stationed in the buffer zone between Syria and the Golan Heights. He also added that he ordered the establishment of a “pure defensive zone” in southern Syria without a permanent presence for his entity “to prevent any terrorist threat to ‘Israel’.” Netanyahu, who announced on 8 December 2024 the collapse of the “disengagement” agreement with Syria signed in 1974, stressed that the part occupied by the Jewish entity and annexed from the Syrian Golan Heights “will remain ‘Israeli’ forever.” He added that he had instructed his army to seize the buffer zone with Syria and the leadership sites adjacent to it, boasting, “We will not allow any hostile force to establish itself on our borders,” in line with US Secretary of State Blinken’s assertion that ‘Israeli’ has the right to defend itself,” not far from the UN envoy to Syria, Pedersen, urging external powers to “make efforts to avoid the collapse of institutions after the fall of Assad”!

Yes, this is the Jewish entity rampaging in Gaza and Syria, raining down its shells and aircraft missiles, amidst unlimited American support. It is rampaging in the absence of anyone to deter it and break its horns. It is committing a hateful crime, targeting all strategic weapons in Syria to destroy them, for fear that they might reach those who would use them against it. It is targeting that Syria would be crippled, broken-winged and unable to uproot the Jewish entity or even threaten it. They want the Syria of the future to be a weak, submissive, and a humiliated state, without weapons, so that it cannot resist anything, while the monstrous entity seeks to move to the stage of setting new red lines for future negotiations. What is important to the Jewish entity and to the West is that the countries of Muslims are poorly equipped and prepared, and are stripped of any effective strategic weapon. This is so that they are unable to make any real difference in the battles with the Jewish entity if a sincere group outside the international circles comes to power.

Yet, a hateful rampaging is met with the silence of the grave dwellers who have assumed leadership on the ruins of the tyrant Assad. This is asides from complaining to the UN Security Council, while declaring reassurance that there is no intention of any external war in the future. Al-Jolani recently declared, “We are not about to engage in a conflict with ‘Israeli’. We have no enmity with Iranian society. We have given the Russians a chance to reconsider their relationship with the Syrian people. We are communicating with Western embassies and holding discussions with Britain to restore its representation in Damascus”!

The arrogance of the Jews in Gaza, ash-Sham and elsewhere, in addition to international hegemony, must not be dealt with by flattery, leniency, appeasement, submission to conditions, requests and statements, submission to international powers, giving messages of reassurance, or leaning on the oppressors, even a little. Instead, there is a need for a firm ideological stance, rooted in the Deen, in which we are with Allah (swt). This so we take the stance that pleases Him, the Almighty. This is so that Allah (swt) is with us, and honors us by having the Ummah and its popular platform with us. We have all seen the interaction of the Ummah, the hearts beating with Islam, the spirit of jihad rooted in the Ummah and the Ummah’s longing to support Gaza and liberate the first of the two Qiblahs and the third of the Sacred Masajid.

We call upon the free revolutionaries and mujahideen who brought down the tyrant of ash-Sham, after they recorded the most wonderful heroic and epic deeds, we call upon them not to allow the continuity of the remnants of the constitution and system of the tyrant. We call upon them not to accept any alternative to the ruling by Islam, so that they will not be like the one who unraveled the spun thread, after it was strong. We call upon them to firm up their stance and move towards establishing the Islamic state, so that we may deserve the Pleasure and Companionship of Allah (swt) and be truly grateful for the blessing of victory with which He has honored us. Our praise and gratitude to Allah (swt) is by implementing His Shariah Law and establishing His state on the ruins of the criminal, defunct secular regime. Then the Jewish entity and those behind it, from the kuffar and criminals of the earth, will know what fighting and attacking is. Then we will truly apply the warning of Allah (swt) to the Jews, ﴿فَإِذَا جَاءَ وَعْدُ الْآخِرَةِ لِيَسُوءُوا وُجُوهَكُمْ وَلِيَدْخُلُوا الْمَسْجِدَ كَمَا دَخَلُوهُ أَوَّلَ مَرَّةٍ وَلِيُتَبِّرُوا مَا عَلَوْا تَتْبِيرًا﴾
“When the second warning would come to pass, your enemies would be left to totally disgrace you and enter that place of worship as they entered it the first time, and utterly destroy whatever would fall into their hands.” [TMQ Surah al-Israa 17:7]
