Regarding the Ceasefire Agreement in Gaza

History will remember that the lessons of the Operation Al-Aqsa Flood are more powerful than oppressive tyranny.

History will remember the legendary fortitude of a patient and calculating few, who believed in their Lord and trusted in Him, and rejected regimes, rulers, the international order and its conspired United Nations, so they plunged the nose of Netanyahu's nose, his entity and his soldiers in the dirt, despite the lack of equipment and supplies.

History will record that a single battalion from the Ummah of Islam, in a small, besieged area, inflicted heavy damage upon a heavily armed army, with America, the West, and the kuffar of the world standing with it. So what about when the armies of the Ummah mobilize under the leadership of a single Imam?!

History will remember how the people facing massacres established that when Iman is firmly rooted in the souls of the sons of the Ummah, liberation (tahrir) from the domination of the West and its agents is closer than the blink of an eye. They established that no force, no matter how great or small, will be able to confront them or break their will.

History will remember how the men of Gaza, a besieged minority, manifested the great spiritual strength that Muslims possess when the concepts of Aqeedah and Jihad penetrate their souls, the spiritual strength that made them lions in war and resilient foot soldiers, who are unshakable and whose resolve never wavers in this great mission.

History will remember those who unleashed their energies and reminded us of the heroism of the conquerors, despite the siege and the lava of fire, despite the bitter and suspicious betrayals and the plots of those close and distant.

History will remember that Operation Al-Aqsa Flood raised the awareness of the Ummah to high levels, about the radical solution, and about who is on the side of the Ummah, and about who is on the side of its enemies.

History will record that the roar of wounded lions has confirmed with certainty that the Jewish entity is a paper tiger, falsely boasting of a lion's fury. Its days are numbered, its breathing is ragged and its ropes are torn and frayed.

History will remember the memories of the "spirited amongst the spirits" in a pure and Blessed Land, whose time to be cleansed from the filth of the occupiers has come.

History will remember the traitorous rulers who restrained the Ummah's armies from supporting their brothers and their sanctities. They established borders and "nationalistic" cages, that the kafir colonialist made with his own hands, thinking that

they would prevent the Ummah's coming storm, that would demolish thrones, break the shackles, and open the borders.

History will record that the seeds of the Al-Aqsa Flood, the blood of the brave, and the noble that bid us farewell, to return to Allah (swt), the One Who Judges, after establishing the fragility of the entity, will sprout a resounding victory, Allah willing, that will destroy the thrones of tyranny and unify all Muslims under one Rayah banner and one Imam, who will address whoever harms a Muslim, يا عدو الله، الجواب ما تراه لا ما تسمعه "O enemy of Allah, you will see the response, not merely hear of it."

History will record that the fire that burns in the hearts of the sincere of the Ummah from the people of power and strength, because their rulers have restricted them from doing their Shariah obligation, will move now in one direction. A radical solution and a real change is coming, with which Allah will heal the hearts of the Ummah of the believers.

May Allah (swt) have mercy on our righteous martyrs and grant peace, security and dignity to our people in Gaza and all of Palestine. O Allah, shelter their homeless, secure their fearful ones, feed their hungry ones, heal their wounded ones. O Allah, make their blood and pain a source of hope for them and for all of us, for a bright tomorrow in which the sun of Islam rises under the shadow of the rule of Islam and its state, the Khilafah (Caliphate), a state that honors Islam and its people, spreads justice and security throughout the world, and makes criminals forget the whispers of Satan. We ask Allah (swt) that this will be soon.

The Prophet (saw) said, «إِنَّ اللَّهَ زَوَى لِي الْأَرْضَ، فَرَأَيْتُ مَشَارِقَهَا وَمَغَارِبَهَا، وَسَيَبْلُغُ مَلِكُ أُمَّتِي مَا زَوَى لِي مِنْهَا» "Allah folded the earth up before me, so that I saw its east and its west, and the dominance of my Ummah will reach all that was folded up before me."
