

Conflicting Parties are Leading the People of Yemen from Fire to Fire, to Serve the Colonists ... O People of Yemen, Beware of the Fire of the Lord of the Worlds

(Translated)

The people of Yemen continue to be plagued by the fires of the Anglo-American conflict, which has been raging in their country for nearly three years. This conflict and fighting has destroyed crops and animals. And despite the suffering of the people of Yemen from hunger, poverty, disruption of basic services, suspension of salaries, looting of the country's goods, spread of diseases and rise in prices, those conflicting over the influence and wealth of the country to serve the Kaffir colonists do not regard any pact or honor in respect of these people, for they lead the people of Yemen from fire to fire and from war to another, all in order to satisfy their masters the British and the Americans. Britain which supports the Hadi wing, and which was also supporting the deceased Ali Saleh's wing through the United Arab Emirates (UAE), is still trying to maintain its interests through its agents in the face of American-backed Iranian agents such as the Houthis in the north and the separatist movements in southern Yemen. America has commissioned Saudi Arabia to launch the decisive storm operation to bestow on them the legitimacy and the status of being oppressed after they were the oppressors, for the storm was not designed to eliminate the Houthis ... And today we see how the achievements of the vicious decisive storm has worked to strengthen the Houthis, especially after they have killed Ali Saleh (pro-British) who the UAE was drafting for him a heroic role to work through which to overthrow the Houthis and to ally with the second wing of Britain: the Hadi wing. But, America through the Houthis dropped this scheme by killing Ali Saleh, so Britain became with only one wing, not strong enough to fly or have a real influence against the agents of America in Yemen.

Ali Saleh, an English agent who ruled the country for 33 years, served the interests of the English and spread corruption in the wealth-rich country, and no matter how much his regime pretended to wear Islam, it remains a republican regime with veiled secularism in which people lived away from Islam and its provisions and it marched the people from war to war. People have been mournful for Ali Saleh as a person not as a regime, and they did so out of emotion and reaction to his killing in such a provocative and immoral way by the Houthis who are worse than him in the eyes of the people ...

All parties to the conflict are not interested in Islam except the abhorrent sectarian slogans used to bring followers and mobilize them to fight. As for establishing Islam as a way of life that regulates life affairs, it does not concern them and is not of their goals. Rather, they seek to fight it under the slogan of "fighting terrorism", to serve to America and the west, and they agree on the Republican system and the secular democratic civil state!!

The Houthis, who were not listed by America on the list of terrorism, as it did not include before their mother, Iran and its parties, and it has been silent on what they do, and is working for the sake of legitimizing them, on the pretext that they are a minority and they are oppressed. Thus, the people find them singing about the house of the Messenger (saw), though their actions and systems that they arbitrate by are the same systems for those who were before them, and they are not related to Islam. Rather, they are oppressive police regimes that offend Islam when they show it as a project of killing and fighting and creedal statements!!

As for the south of Yemen, the pro-American separatist movement is roiling the British agents, although UAE acts concerned for them and supporting them, only to contain them and to know what they plan and thwart those schemes. It is shameful to find these separatists move against the wave of the Ummah which thirsts for unity, and for removing the colonial borders and liberating Al-Aqsa from the rule of the userping Jews; here they are at this time, calling for a separation that is haraam in Sharia and rejected by the reality and the popular, and we wish they could be wise.

O people of Yemen! You have been destroyed by the war, in which you have nothing to do with it, but works against your interests, so it burns you and spread destruction and devastation in what remains of your country. We are calling upon you to work to put an end to these wars and conflicts with awareness that is derived from your Iman and your wisdom in which you are proud. And how strange you let your children perish in this war, and you push them to it like the people of Jahiliyah (ignorance) who killed their children for fear of impoverishment. All that because of the unemployment, poverty and famine created by these conflicting people, who brought you to this situation, so will you not reason?!

Those conflicting for power and wealth in the country are the incurable disease. If they disagree they kill you, and if they agree, they plunder your wealth and starve you, and there is no solution for you or salvation except to work for the Khilafah Rashidah (righteous Caliphate) state on the method of Prophethood. It is the one that gathers your dispersion, ends your tragedies and eliminates the hatred and abhorrence that sectarianism, regionalism, and racialism have planted in your hearts. Above all that, it restores the rule of Allah and His law to your lives so that Allah and His Messenger will be pleased with you, and the inhabitants of the Earth and the inhabitants of Heaven will be satisfied with you, and you will be truly the people of Iman and wisdom, in a time when Iman and wisdom have been lost as a result of abandoning your religion and poisoning the country's atmosphere with decadent Western ideas and its corrupt systems which have struck the region of Iman and wisdom in you with a blind film.

O our people in Yemen! Your issue is the ruling and establishing Islam in real life, it is not the issue of conflict over governance and power without a clear methodology and a rational constitution, so do not let the calls of secularism, civil state, sectarianism and regionalism, and the outcomes of the United Nations have a way to you. If you call for this, Allah will impose upon you the colonists and their tyrannical regimes internally and externally, and you will be dispersed an evil dispersion like your former ancestors, who Allah (swt) said in them: ﴿فَقَالُوا رَبَّنَا﴾ **“But [insolently] they said, "Our Lord, lengthen the distance between our journeys," and wronged themselves, so We made them narrations and dispersed them in total dispersion. Indeed in that are signs for everyone patient and grateful.”** [Saba: 19].

The people of Yemen lived as part of the Islamic Ummah under the shade of the first Islamic state that was established by Muhammad (saw). The Islamic Ummah was one nation, under one leader and one banner. They lived a dignified life and were truly the people of Iman, wisdom, compassion and mercy with primitive means and difficult circumstances, but the concepts of Islam and its provisions were the ones that changed their lives and refined their natures. And then after the colonizer came and imposed his civilization on us we became what we have become!!

We call upon you to work for a radical change over these foolish people who gamble with your fate and lead you to the obvious doom, and not to sit behind with those who sit and surrender to the humiliating reality. And we warn you not to take your lives to serve the schemes of the disbelievers.

Allah (swt) says: ﴿وَلَا تَرْكَبُوا إِلَى الَّذِينَ ظَلَمُوا فَيَتَمَسَّكُمُ النَّارُ وَمَا لَكُم مِّن دُونِ اللَّهِ مِن أَوْلِيَاءَ تُمْ لَا تُنصَرُونَ﴾ **“And do not incline toward those who do wrong, lest you be touched by the Fire, and you would not have other than Allah any protectors; then you would not be helped.”** [Hud: 113].

And know that the method of change that is obligatory to follow in changing your painful reality is the method of the master of the messengers Muhammad (saw) who established by it the authority of Islam and his first state in Medina, so for this let the competitors compete.
