Ayman Safadi: "Whoever has an alternative to the two-state solution, let him present it!"

Hizb ut Tahrir has presented and continues to present the legitimate and practical solution.

(Translated)

Is the Jordanian Foreign Minister seriously asking for an alternative to the two-state solution so that we respond?

This is what was said by the Jordanian Foreign Minister Ayman Safadi in the main session of the "United Nations International Conference on the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution", which was held at the United Nations headquarters in New York, jointly chaired by Saudi Arabia and France on Monday, 28/07/2025.

It is the Jordanian regime that imposed on the people of Jordan and the Islamic Ummah the solution that aligns with preserving the security of the monstrous Jewish entity. You had no reference for the solutions to the issue of Palestine except America, the regime's friend, ally of the Jewish entity, its guarantor, protector, and partner in the war of extermination and starvation against the people of Gaza.

Has anyone who presented a solution to the Palestine issue other than the two-state solution, since the beginning of the issue—whether from the people of Jordan or from principled political parties and sincere activists—received anything from you other than arrest, torture, prosecution in the State Security Court, and imprisonment under charges as minor as inciting the undermining of the regime? Is the regime's security and existence tied to responding to the solutions of its enemies?!

It is clear that your political projects are the ones that have proven their failure over the decades until the situation of the country and the people reached a state of shameful humiliation. It proved that you have dedicated yourselves to subservience to the enemies of the Ummah, from the Jewish entity and the international system represented by the Western colonial disbeliever America and Europe. Your alternative solutions like the two-state solution will not avail against the original solution, which is jihad in the path of Allah, and the return of the Islamic State and the implementation of the Shariah to rescue the country and the people from the clutches of those whom you call to live beside and preserve their security.

But far be it! You are not of the Ummah and the Ummah is not of you. You were brought by the Western colonial kuffar to sit on the people's chests with solutions of submission and surrender. If you had an ounce of sincerity and knew that the despicable Jews reject the two-state solution, and that they do not want negotiation—as you yourself said—while the U.S. State Department attacked the United Nations conference in New York on the two-state solution saying: "A publicity stunt that harms diplomatic efforts", siding with the Jewish entity in rejecting

the two-state solution, then why do you persist in the futile defense and advocacy of such a solution and rely on some European states and their intention to recognize the illusory Palestinian state that has no reality? Or does such a solution have another interpretation, and you are merely deceiving the people of Palestine and Jordan to liquidate the Palestinian issue at their expense, either through deceptive displacement or by granting the West Bank residents a Jordanian umbrella to satisfy the ambitions of the Jews?

Even if we hypothetically assume that you want the two-state solution, even that solution needs power to impose it on the Jewish entity and America. And the maximum power you have is complaint and diplomatic condemnation addressing international law which Safadi himself previously described as dead. Do you not see that you are faced with two options: either to force the Jewish entity with power—meaning fighting—at the very least to preserve the sovereignty of Jordan which you have humiliated in the dust while you claim to defend it, or to surrender and submit?!

As for your skill in hollow political rhetoric that neither feeds nor enriches from hunger, it is a model of disgrace that does not even come from the weakest of states, as when you said: "It is time for the world to take action against Israel which opposes the two-state solution". Who is this world you are addressing? Is it the world that is silent about the Jewish entity, even participating in the killing and starving of the people of Gaza?!

If there is any hope of liberating the Ummah from the clutches of Western colonialism and its civilizational, political, military, and economic dominance and uprooting the Jewish entity from its roots, then the material Islamic unity on the ground—in addition to the emotional unity already visible—is what achieves this hope. This is what we in Hizb ut Tahrir work for when we declare work to establish the Khilafah (Caliphate) on the method of Prophethood, as it is the only and original way out for the Ummah from its tragedies that it has suffered from for decades. It is what the Western countries fear and fight against, either directly or through alternative illusory submissive solutions like the two-state solution that your regimes have spent decades pursuing, knowing that it achieves nothing but the survival of your regime to keep repeating the phrase "two-state solution" that has no geopolitical reality even if all of deceitful Europe were to recognize it.

If you are serious, then here is the solution before you to convey to the rulers of your country; otherwise, your question is nothing but idle talk among the hollow slogans you repeat in the platforms of the dead international order.

The sincere and practical legitimate solution is the one that Hizb ut Tahrir has presented throughout the years of its dawah since its inception. It is the pioneer that does not lie to its people, and it has made it clear to you and to its people in Jordan and the Arab countries surrounding Palestine when the cost was much lower on the Ummah and the regimes, before matters worsened to this degree of abandonment due to your policies and dependencies.

And it is, quite clearly: mobilizing the armies, fighting the Jewish entity, and liberating all of Palestine from their evils and cutting off the rope of people's support to them.

﴿إِنَّ فِي ذَلِكَ لَذِكْرَىٰ لِمَن كَانَ لَهُ قَلْبٌ أَوْ أَلْقَى السَّمْعَ وَهُوَ شَهِيدٌ﴾

"Indeed in that is a reminder for whoever has a heart or who listens while he is present [in mind]." [Qaf:37]
