America Imposes Negotiations on the Warring Sides in Sudan after its Poisonous Concoction has Matured

(Translated)

After three months of killing, destruction, displacement, looting of public and private property, and infrastructure destruction, America has returned to talk about negotiations between the warring sides in Sudan. Its allies in the region echoed its voice, and discussions about the seriousness of the situation in Sudan began, as if the war had just started yesterday! It seems that the American poisonous concoction has matured, so America is pressuring the warring sides to negotiate for its termination. Here is its ambassador in Khartoum stating via Al-Jazeera Live, "The calls made by some military factions to reject any negotiated settlement of the conflict are irresponsible."

This statement by the American ambassador in Khartoum confirms what we have concluded since the outbreak of this futile war, that it is an American demand intended to undermine the framework agreement that gives real power, when implemented, to British personnel (civilians).

The malicious American plan succeeded in rallying people around the army after the horrific practices carried out by the Rapid Support Forces against them. Thus, America ensured the support of any future steps that strengthen the military's position. The talk about the civilian government is merely an illusion in the eyes of the grieving people of Sudan. It will not be any better than the Hamdok government; it will be a symbolic government whose only mission is implementation.

Therefore, we see this frantic race by America's puppets in the region, starting with the IGAD Summit in Ethiopia, followed by the summit of neighboring countries of Sudan, led by Egypt on Thursday, 13/7/2023. Both summits focused on ceasefire and negotiations. The conflicting sides expressed their welcome for the ceasefire, and practical negotiations began with the departure of the army delegation and the Rapid Support Forces delegation in Jeddah, Saudi Arabia.

It is truly unfortunate that our country has become a field for executing the plots of the colonial Kuffar (infidels), at the cost of our blood and honor, and that this is done by the hands of some of our own people who have sold their Deen for the worldly gains of others.

O People of Sudan, work with those who strive to resume your lives with Islam, which is achieved by establishing the Khilafah Rashidah (rightly guided Caliphate) on the method of the Prophethood. It uproots the influence of the colonial infidel from our country, seeks retribution from its agents, safeguards the sanctities, and spreads goodness to humanity.

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا اسْتَجِيبُوا لِلَّهِ وَلِلرَّسُولِ إِذَا دَعَاكُمْ لِمَا يُحْيِيكُمْ﴾

“O you who have believed, respond to Allah and to the Messenger when he calls you to that which gives you life.” [Al-Anfal:24]
